Berliner Glas Group Your Partner for Optical System Solutions

Berliner Glas Group is one of the leading suppliers in Europe of optical key components, assemblies and integrated systems. In addition, we provide extensive measuring methods and individual documentation.

With its wide range of optical solutions from engineering to production, BERLINER GLAS GROUP supports optical requirements in Information Technology and Communications, Industrial Sensors, Defense, Semiconductor Industry and Life Science.

Dedicated to photonics, 950 well-trained and experienced employees in Germany, Switzerland, the United States and China work on the invaluable use of light in its highest functionality.

Berliner Glas is certified to DIN ISO 9001 and DIN ISO 14001.

Berliner Glas Group Our performance at a glance

Engineering

- systems engineering
- optical and mechanical design
- coating design

Key-Components

- lenses: spherical, cylindrical, aspherical
- plano and prism optics
- microstructures
- gratings
- special coatings (DUV, UV, VIS and NIR)

Assemblies

- optical assemblies
- opto-mechanical assemblies
- lens systems

Systems

- opto-mechanical systems
- electro-optical systems
- integration of optics, mechanics and electronics
